

Director
Intelligence Community Staff
Washington, D.C. 20505

STAT

MEMORANDUM FOR: Dr. Andrew L. Klein
Director, The Hay Group

VIA: Lt Col William Welser, USAF
SA-General/Flag Officer Matters
Office of the Joint Chiefs of Staff

SUBJECT: Position Data Questionnaire

REFERENCE: Chairman, JCS Letter, dated 28 September, with
Subject Questionnaire Attached

1. I have enclosed the subject questionnaire and other information requested in the above referenced letter from Admiral Crowe. There are several points that are explained during the course of the questionnaire, but I believe they should also be made up front:

- This position is entirely outside of the DoD and JCS chains of command.
- This position's use of a General/Flag Officer is established by law (National Security Act of 1947). The law is carefully crafted so the Officer is free of any encumbrance from either DoD or the JCS.
- The civilian equivalent to this position is Executive Level 03 (EX-03).
- The position, and the Community in which we work, is in an extremely sensitive and classified world. The budget, manpower, and most details are highly classified.

2. In addition to the questionnaire, I have attached several documents and excerpts from others to further illustrate the position. They include:

- Executive Order 12333; dated December 4, 1981. This document spells out the direction the President has established for the nation's intelligence efforts. It includes the goals, duties, responsibilities, and the organizations.
- Excerpt from "Intelligence; The Acme of Skill," published by CIA. These pages graphically set up and explain the President's intelligence organizations, including the Intelligence Community Staff.
- Excerpts from the National Security Act of 1947, as amended. This law specifically outlines the use of a General/Flag Officer as the Director of the Intelligence Community Staff.
- The Intelligence Community Staff's wiring diagram, and an unclassified description of each of the Offices that are under the auspices of the Director, Intelligence Community Staff.
- Excerpt from the Congressional Conference Report on Intelligence Authorization Act for Fiscal Year 1989. This document sets the budget for the Intelligence Community Staff and the manning ceiling.

3. I hope you will find these documents informative during the rating and evaluation of this particular billet. If there are any questions, or if you desire further clarification, please call me or my Executive Assistant, Major

[Redacted]

[Redacted]
Edward O. METZ
Lieutenant General, USAF
